Why Choose PCCW Global

The fastest and simplest way to enter the global unified communications market. Opex based approach, with no large up-front investment.

Serving partners in over 3,000 cities and 150 countries. Proven expertise in delivering large, complex cloud communications solutions under our partners' brand.

A carrier-grade platform that utilises Best of Breed technologies from a growing list of suppliers including: IBM, BroadSoft, Oracle, Cisco, Polycom.

The only truly global UCaaS platform that can offer you a single relationship with a single invoice for deployments around the world.
