

Application: Corporate Card

Tap & Go's corporate solution is a great alternative to handling petty cash or managing corporate credit cards for various business expenses such as travel costs and purchases involving small amounts.

Our approach is to provide each employee with a prepaid Tap & Go corporate card and mobile wallet, while equipping authorized personnel such as department administrators with feature-rich web-based tools to facilitate easy management of the following everyday needs:

- Dispensing money to employees' Tap & Go accounts
- Monitoring each employee's transaction history
- Activating/deactivating a particular Tap & Go account
- Withdrawing money remotely from a Tap & Go account whenever necessary
- Generating monthly expense reports for accounting purposes

The beauty of Tap & Go's corporate solution is that it offers a simple prepaid card facility that can be used when employees need to pay for low-price items on behalf of the company. Administration is also simple because a company can transfer cash to an employee's Tap & Go corporate account with the utmost ease.

Advantages offered by Tap & Go's Corporate Card include total control of expenses, along with flexibility, operational streamlining, scalability and adaptability when changes need to be made.

The following diagram shows how Tap & Go's Corporate Card can streamline the administrative process:
