

# Communication Solutions for the Extraction Industry:

Oil, Gas and Mining

## Solutions for the Extraction Industry: Oil, Gas and Mining

### Supporting business operations onshore and offshore:

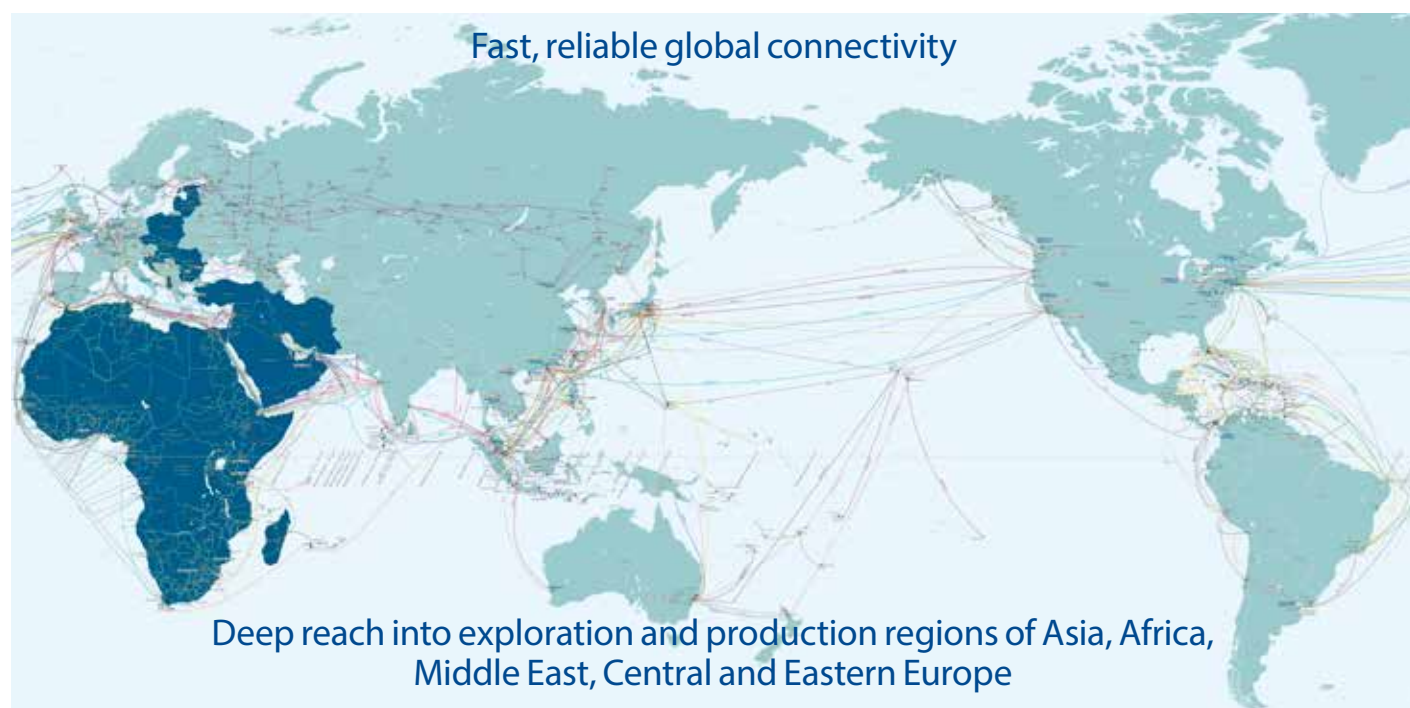

- Reach into the most remote field locations with high speed data
- High availability and reliability of real time data for mission critical applications
- In-built flexibility to support high capacity data growth
- Highly secure communications environment

### Global Network Capabilities

Reach deep into the main exploration and production regions of Asia, Africa, Middle East, Central and Eastern Europe.

Our sophisticated hybrid solutions combine fiber, satellite, microwave and wireless connectivity from our fully integrated global network to meet the unique needs of the Extraction industry.

- High quality, fully redundant global network
- Fibre network reach to 3,000+ cities and over 130 countries
- One of the world's largest global satellite networks with over 1GHz across 65+ satellites
- Dedicated professional pre-sales team for best fit integrated solutions
- 24/7 network operation centers to guarantee high service quality

## Communications Solutions — Connectivity, Data Management, Collaboration

We provide solutions in some of the most hard to reach locations specifically tailored to the Extraction industry's unique requirements. We can integrate your most remote exploration and production sites into your corporate network and make operating in remote and harsh environments easier, secure and cost effective.

### PCCW Global Solutions for Oil, Gas and Mining

#### • Network Solutions

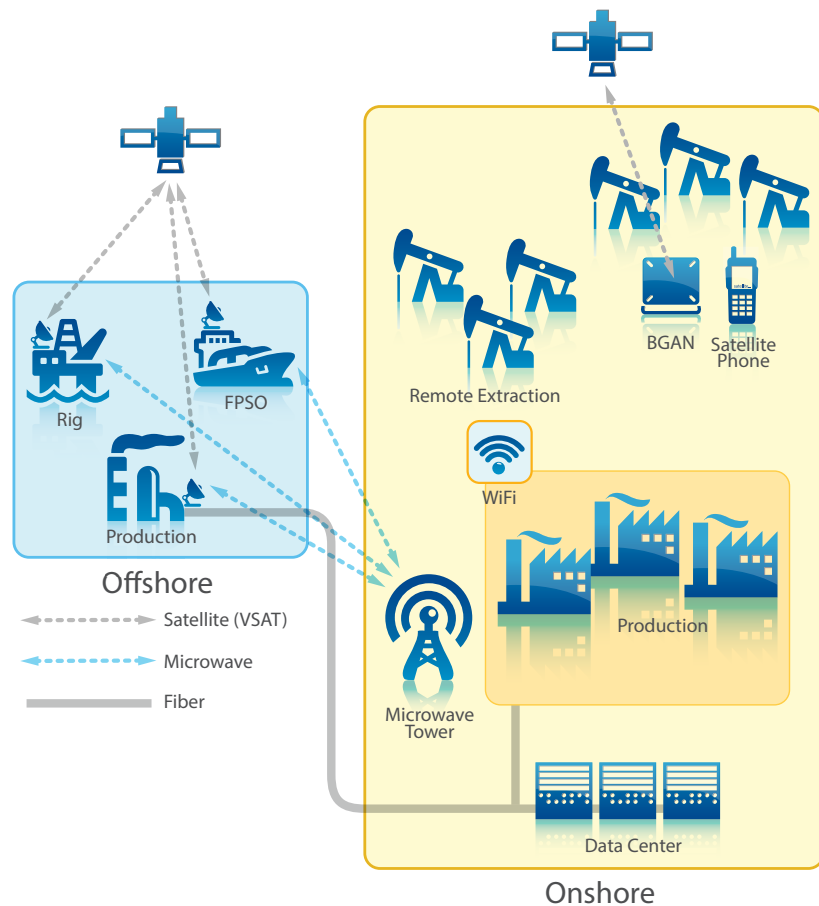

- Fiber
- Satellite
  - VSAT
  - Mobile Satellite
- Microwave
- MPLS VPN
- Ethernet
- Secure Internet Access

#### • Data Management

- Cloud Storage and processing
- Data Center

#### • Collaboration

- HD Video Calling and Conferencing

## Why PCCW Global?

### We Are Wherever Our Customers Need Us To Be

- Experts on the ground in the most diverse and unique telecoms markets around the globe

### Superior Network Performance

- Network reaches deep into the main exploration and production regions of Asia, Africa, Middle East, Central and Eastern Europe
- Network design incorporating full redundancy and resilience
- Extends to more than 3,000 cities in 130 countries worldwide including challenging and remote locations

### Unparalleled Customer Support

- 24 x7 management, highest levels of customer satisfaction, world class SLAs, wherever you operate.
- Prompt responsiveness in emergency restoration
- A single point of contact at PCCW Global from the moment you order

## PCCW Global

- We are your expert partner for global connectivity
  - We make the complex, simple
  - We deliver smart solutions for your business
